EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Cancel claims 1 – 15 and 27 – 30.

The canceled claims pertain to a non-elected invention withdrawn without traverse in Paper No. 6.

Allowable Subject Matter

2. Claims 16 – 26 are allowed over the prior art of record.

3. The following is an examiner's statement of reasons for allowance: Kim, in the U. S. patent 6,225,688 B1; substantially discloses the claimed invention. Kim, however, does not disclose, teach or suggest "providing at least one bare unpackaged semiconductor die having a plurality of bond pads" and "attaching the at least one semiconductor die to said flexible interposer forming an intermediate structure, said at least interposer being folded around at least one bare unpackaged semiconductor die." Kim teaches that "[p]referably, the chips are fully packaged prior to attachment to the "folding substrate." That way, if one chip is defectively packaged, the whole module need not be replaced" (Column 9, Lines 14 – 16). Kim effectively teaches away from the claimed invention by lack of indication that bare chips could be employed

as disclosed. Therefore the claimed invention as a whole is neither anticipated nor rendered obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
